## PLUG YOUR ATA

### How to plug an analog telephone adapter (ATA) SPA122

This guide is to connect an ATA to a fax machine

- 1 – Plug the RJ11 cable of the fax machine to the gray plug “Phone 1”
- 2 – Plug the RJ45 of the internet (coming from the router or the switch) to the blue plug “Internet”
- 3 – Go to our web interface, Studio, to activate the pairing of the device
- 4 – Once the timer is started, plug the power in the DC 5V Power plug.
